“Compared to Taylor and Tharp, whose places in dance history are assured, Lang, 31, is a neophyte. But her 20-minute work, “*From Foreign Lands and People*,” tucked into the middle of the program, is in no way overshadowed by the two veterans’ selections. Typically, works by young choreographers show potential but also the shortcomings of inexperience. *From Foreign Lands* is a fully formed mature work that holds the audience’s attention for its duration. Her always creative, often sly movement has a reactive, spontaneous quality – one element clearly triggered by another. Expect big things from Lang. She is a major choreographic talent.”

“An engrossing, thoroughly lovely piece ... needs no words of explanation. This is evocative dance that fires the imagination, unfolding seamlessly and never running out of ideas. Rich with imagery and intricate details, it bears repeated viewings.”
